The XXIV International Conference on Robotics aims at bringing together under a unique forum, scientists from academia and industry to discuss the state of the art and the new trends in robotics and to present recent research results and prospects for development in this rapidly evolving area.

ROBOTICS 2018 will feature several kinds of presentations, including invited talks, contributed papers and special sessions. The outcome of ROBOTICS 2018 can be a better understanding and development of one of the most challenging research areas.

TOPICS

The conference topics include (but are not limited to)

- Human-Robot Interaction
- Mechanism and Design
- Kinematics, Dynamics and Control
- Medical Robotics
- Micro and Nano Robots
- Mobile Systems and Mobility
- Robot Perception

All materials must be written in English. Full papers should be submitted to robotics2018@tuiasi.ro. Submitted papers will undergo a peer review process, coordinated by the International Program Committee. All the selected and presented papers will be published in IOP Conference Series: Materials Science and Engineering (ISI Web of Science). Author guidelines can be found on the conference website www.robotics2018.tuiasi.ro.
